Find your child's size

1. Place this guide on a solid floor - using tape on the corners helps to keep it steady.
2. Get your child to stand on this guide with their heel against the **Place Heel Here** line. If you can get them to put their weight on the foot and relax their toes, even better. If your child is going to be wearing socks with their shoes, please ensure that socks are worn when the feet are being measured.
3. Draw a line to mark the end of the longest toe.
4. Repeat with the other foot. If one foot is longer than the other, choose the larger size.
5. The ideal shoe size will be between 5-10mm longer than the mark made at the toe.
6. For example: For Freycoo squeaky & toddler shoes, if the longest foot length is 147mm, the Size 9 (with the 155mm inner length) will give an ideal gap of 8mm.

Place Heel Here

Print on A4 paper at 100% Actual size (not "Fit To Page")

Put a credit card or £1 coin here to make sure this is printed true to size.
